## Who Are We?

BlueWave is a small business resourcing firm based in Orlando, Florida. Our team specializes in exact match resourcing across engineering and technical functions within the Public and Private Aerospace sectors. Our comprehensive approach to resourcing is leveraged through teaming agreements both pre- and post-award that allow us to mitigate personnel gaps and deliver on identifying, sourcing, onboarding, and retaining key personnel, baseline, and surge employees.

## Why BlueWave?

? At BlueWave, we are committed to delivery through our detailed and uniquely dedicated approach to resourcing. Our ability to efficiently understand complex missions, allows us to fill highly skilled, critical personnel gaps within 72 hours. Traditionally, alongside management, our team takes full ownership in the process of hiring personnel. This creates space for functional managers to focus on scope, timeline, and day-to-day program functions. While we focus on delivery in providing quality resources to fulfill critical gaps. We are experts in sourcing and our understanding of current market trends allows us to provide accurate and competitive pricing data to combat turnover and surge quickly.

## Capabilities:

Our team is experienced in supporting operational launch contracts at Kennedy Space Center, Cape Canaveral AFB, and Vandenberg AFB. While our support has primarily been performed out of three geographic locations, our candidates were identified and relocated from 48 different states, across multiple transferrable industries. We have extensive experience, but not limited to, identifying, relocating and onboarding 500+ of the following skill sets:

### Systems:

- Launch Control System Design Integration- Electrical
- Integration- Mechanical
- Launch Control Test Engineer
- Launch Control Test Technician
- Enterprise Systems Hardware Engineer
- CAIDA- System Test Engineer
- Configuration Manager
- Linux System Admin
- Windows System Admin
- Systems Engineer
- Systems Integration

### Software:

- Launch Control Software Simulator
- Launch Control Software Emulator
- C++ Engineer
- Build Engineer
- DevOps Engineer
- Software Emulator SME
- Software Thread Lead
- Software Test Engineer
- DSF Engineer
- Software Quality Engineer
- Windchill Admin
- Sr. Simulation Engineer

### Electrical Design:

- Fluids
- Cryogenics
- Fluid Systems
- Thermal
- Control
- FPGA Design

### Engineering Analysis:

- Structural Analysis
- Civil Analysis
- Mechanical Analysis
- Electrical Analysis
- Human Factors/Industrial Analysis

### Mechanical Design:

- Fluids
- Thermal Dynamics
- Hypergolic
- Structural
- Hazardous Gas
- Cryogenics
- Civil/Structural
- Human Factors/Industrial
- AutoCAD Drafter
